

VIVENTIUM

NTS Contracting Case Study

| IN IT WITH YOU

John Niedermyer has been with Viventium for 7 years. He is the founder and owner of NTS Contracting.

NTS has used Viventium since its inception and is on our payroll and tax services.

John chose to partner with Viventium from the start because he needed an HCM provider with intuitive, easy-to-use software and great service.

John appreciates the fact that Viventium was able to support him while beginning and building his contracting business.

| STARSTRUCK MOMENT

John feels that Viventium consistently provides him with remarkable software and service. This lets John focus his time on managing his company, rather than concerning himself with payroll, tax, or compliance nuances.

This is not just a starstruck moment, but a 7-year long starstruck journey.

LIFE WITH VIVENTIUM...

.....

- > **Automated Payroll** - Our ability to automate payroll with multiple pay rates for type of work performed allows John to easily pay his employees the right rate for different jobs.
- > **Knowledge** - Our ability to provide and communicate our extensive knowledge to the NTS team allows them to remain in full compliance in the construction industry.
- > **Ease of Access** - Our software's ability to be accessed anywhere at any time lets John and employees access their pay-stubs, W-2's, and employee data on their own time.
- > **User Friendly Platform** - Our ability to provide a platform and application that is intuitive and easy to use allows for easy viewing of payroll information.
